# *2008 Kentucky Annual Long-Term Care Services Report*

*January 1 through December 31, 2008*

*Published September 2009*

**Cabinet for Health and Family Services  
Office of Health Policy**

# **2008 Kentucky Annual Long -Term Care Report**

## **Introduction**

The Office of Health Policy announces the release of the 2008 Kentucky Annual Long-Term Care Report. This office is responsible for the utilization data collection and reporting required by 902 KAR 20:008 (rev. 10-15-03) and in support of the State Health Plan 900 KAR 5:020.

This report covers the period from January 1, 2008 to December 31, 2008. The files received from the Office of the Inspector General (OIG), contained 404 Long Term Care Facilities. Correspondence or surveys were received from all licensed facilities. The number of facilities has increased from 395 Long Term Care Facilities in 2007. The number of Nursing Facility (NF) beds decreased from 26,078 in 2007 to 25,944 in 2008.

The 2008 overall occupancy rate for NF beds was 90.70%, an increase of 0.93% from the 89.77% occupancy rate in 2007. This increase reversed last years trend back to a small upward direction, after the downward trend that began in 1995 and continued through 2004, with the exception of 1999. The highest occupancy rate was 95.00% for the survey year 1995 and the lowest was 89.35% in the 2004 reporting year.

The ending census, or the number of NF beds occupied December 31, 2008, was 23,541 compared to 23,679 occupied beds on December 31, 2007, a slight decrease. The decreased number of beds were occupied for 97,018 greater patient days in 2008 than in 2007 (8,588,026 patient days in 2007 compared to 8,685,044 patient days in 2008).

## **Payor Source for 2008**

The 2008 Payor Source, Section 2, for total patient days as reported by nursing facilities shows the following distribution: The total number of reimbursed days for nursing facilities was 8,685,044 days or 97,018 greater than 2007. Medicare paid days increased by 61,854 days from the 2007 report. Medicaid paid days increased by 39,329 in 2008 than the previous report year.

**\*NOTE:** When checking ending census for the previous year and the beginning census for the current year, there may be discrepancies in the numbers. When possible, a note was included in Section IV to explain this.

## **Definitions**

**Long-Term Care:** A facility licensed by the state through the Office of the Inspector General (OIG) providing one or more of the following levels of care:

**Nursing Facility (NF)** - Long-term care facilities, formerly skilled nursing, nursing home, or intermediate care facilities prior to October 1, 1990, which meet the Omnibus Budget Reconciliation Act of 1987 (OBRA 87) nursing home reform requirements. Nursing facilities must be certified to participate in the **Medicare program in order to be certified for participation in Medicaid**, with the exception of those who have obtained a Medicaid nursing requirement waiver.

**Nursing Home (NH)** - Establishments with permanent facilities that include inpatient beds, and with medical services including continuous nursing service; that provide treatment for patients who require inpatient care but do not currently require continuous hospital services.

**Intermediate Care (IC)** - Establishments with permanent facilities and health related services for patients who do not require the degree of care and treatment which a hospital or skilled nursing facility is designed to provide, but who, because of their mental or physical condition, require care and services (above the level of room and board) which can be made available to them only through institutional facilities on an inpatient basis.

**Alzheimer's Facility (ALZ)** - A long-term care facility constructed and operated pursuant to KRS.216B.071 that provides care to residents with a primary diagnosis of Alzheimer's disease or related disorders.

**Intermediate Care Facility for the Mentally Retarded (ICF/MR)** - A facility licensed by the state through the Office of the Inspector General to provide care for the mentally retarded and developmentally disabled.

**Total Patient Days:** The total days of patient care provided by the facility for the year based on its capacity. It is calculated by summing the daily patient census for each day in the reporting period.

**Days in Period:** 2008 had 366 days.

**Licensed Beds:** The number and type of beds for which the facility has been licensed at the end of the reporting period.

**Percent Occupancy:** Total days divided by potential patient days.

**Potential Patient Days:** Number of licensed beds multiplied by the number of days in the reporting period, adjusted to reflect changes in licensed beds during the reporting period. Example: 100 licensed beds X 366 (days in 2008) equals 36,600 potential days. This figure is not shown in the report but used to calculate occupancy percentages.

**Reporting Period:** January 1, 2008 to December 31, 2008

This report now becomes the most recent official data on Long Term Care services utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a check made payable to the Kentucky State Treasurer to:

## Table of Contents

Introduction – Table of Contents .....	i - vi
Data Analysis – Occupancy Rates .....	vii - x
Long Term Care Facilities Map .....	xi
 Section I – Census Data	
Includes number of licensed beds, beginning census, admissions, discharges, ending census, total patient days and occupancy percentage for each bed type.	
Licensed Nursing Facility Beds by Area Development District .....	1
Licensed Nursing Facility Beds.....	2-31
Licensed Personal Care Beds by Area Development District.....	32
Licensed Personal Care Beds .....	33-53
Licensed Nursing Home Beds .....	54-57
Licensed Intermediate Care Beds .....	58-59
Licensed Alzheimer’s Facility Beds .....	60
Licensed ICF/MR Facilities .....	61-62
 Section II – Payor Source Data	
Includes primary payor source data in number of patient days for each bed type.	
Licensed Nursing Facility Beds.....	63-80
Licensed Personal Care Beds .....	81-92
Licensed Nursing Home Beds .....	93-94
Licensed Intermediate Care Beds .....	95
Licensed Alzheimer’s Facility Beds .....	96
Licensed ICF/MR Facilities .....	97
 Section III – Patient Age Distribution Data	
Includes the ages of patients residing in each facility on December 31, 2008.	
Licensed Nursing Facility Beds.....	98-126
Licensed Personal Care Beds .....	127-146
Licensed Nursing Home Beds .....	147-150
Licensed Intermediate Care Beds .....	151-152
Licensed Alzheimer’s Facility Beds .....	153
Licensed ICF/MR Facilities .....	154-155

#### Section IV – Patient Death Distribution Data

Includes the ages of patient deaths in each facility during 2008.

Licensed Nursing Facility Beds.....	156-184
Licensed Personal Care Beds .....	185-203
Licensed Nursing Home Beds .....	204-207
Licensed Intermediate Care Beds .....	208-209
Licensed Alzheimer’s Facility Beds .....	210
Licensed ICF/MR Facilities .....	211-212
 Section V – Nursing Facility by ADD .....	 213-229
 Section VI – Patient Origin Data.....	 230-311
 Section VII – Notes.....	 312-316

## Data Analysis - Occupancy Rates

The following tables and graphs present statistics from the Kentucky Annual Long-Term Care Reports from 1996 to 2008. In the published reports for 1996 and 1997, the data was reported in Medicaid Managed Care Partnership Regions (MCPR) rather than in Area Development Districts (ADDs). The survey data were recalculated using the ADDs so that a linear comparison could be made. A map of the ADDs is included at the end of this section.

Hospital discharge data for 2008 shows a total of 406,828 patients age 41 and older were discharged from Kentucky Acute Care hospitals for all DRS. Of the 229,018 females discharged, 33,185 or 14.5% were discharged to a skilled or intermediate care beds. Males discharged to skilled or intermediate care beds accounted for 9.8% (17,352) of the total 177,806 males discharged from hospitals in 2008.

The occupancy rate for licensed NF beds has decreased over the past twelve years by 3.43% from 94.13% in 1997 to 90.70% in 2008. The following chart shows the decrease in occupancy with a continuous decline from 1995 through 1998 with a very small increase in 1999 (0.05%), more recent gains in the 2005 and 2006, then a decrease again in 2007. In 2008, the occupancy rate showed a slight increase by 0.93%. The occupancy rate in the following table shows data for each year by ADD. From 2007 to 2008, occupancy fell in all but three of the ADDs. An attached chart shows a graphical interpretation of the data

The number of licensed Nursing Homes (NH) beds increased from 397 in 2007 to 411 NH beds in 2008, with an increase of patient days from 117,858 in 2007 to 136,717 days in 2008. Similar to patient days, the occupancy rate for NH beds increased from 86.11% in 2007 to 89.71% in 2008.

Further data on the occupancy rates by bed type are presented on the following charts and table.

Printed with state funds.

# **Net Change in Occupancy in Nursing Facility Beds Over a 12 Year Period (1997 - 2008)**
